

STAMPANTE USATA PERFETTAMENTE FUNZIONANTE
TANICHE AD ALTA CAPACITA' (4000PAGINE)
STAMPA FRONTE - RETRO AUTOMATICA
NERO E CIANO IN ESAURIMENTO, GIALLO E MAGENTA OLTRE IL 50%
Più eco-sostenibile rispetto alle stampanti laser in bianco e nero, questo modello appartiene alla prima gamma di stampanti inkjet monocromatiche per l'ufficio presente sul mercato. In grado di stampare fino a 10.000 pagine con una sola tanica di inchiostro*2, Epson WorkForce Pro WP-M4015 DN ha una resa elevata e bassi requisiti di manutenzione: dovrai così sostituire le taniche meno frequentemente.

Le taniche di inchiostro e il tampone per l'inchiostro residuo sono gli unici materiali di consumo che devono essere sostituiti: puoi così risparmiare lo spazio di magazzino che verrebbe occupato da toner, fusori e fotoconduttori.

Le stampe sono della massima qualità e resistono ad acqua, sbavature, evidenziatori e scolorimento, poiché si asciugano all'istante. Grazie alla capacità carta di 330 pagine (250 nel vassoio frontale e 80 in quello posteriore), gli utenti possono concentrarsi sul proprio lavoro senza interruzioni per alimentare la carta nei vassoi.

La compatibilità con Epson iPrint, l'applicazione per la stampa da mobile di Epson, ti permette di stampare wireless da smartphone e tablet da qualsiasi punto dell'ufficio.

DATASHEET

WP-4525 DNF model[7]

We all know how frustrating it is waiting for a print job, even more so when it's only a few pages. That's why Epson created the WorkForce Pro WP-4000 / WP-4500 series of printers.

Engineered for business it offers a 50% lower cost per page[1] and faster printing[2] for those small print jobs, compared to the top 10 best-selling colour lasers. And when printing double-sided it's twice as fast as the nearest leading competitor[3].

Alongside this, the WorkForce Pro series offers a massive 80% reduction[4] on energy consumption compared to competitive lasers – providing significant cost and environmental savings. Ink cartridges are clean and easy to change and the cartridge is the only part that needs replacing, so the process is hassle-free.

Designed to suit the modern office – both inside and out – this series is the ultimate professional tool. A high print resolution of up to 4800x1200dpi means businesses get top-quality prints which are water, smudge, highlighter and fade resistant because they are instantly dry. And the paper capacity of 330 sheets as standard means you won't need to spend valuable time looking after it.

There are three models in the versatile WorkForce Pro White series: WP-4015 DN, WP-4515 DN and WP-4525 DNF[7]. On top of the modern white design – which fits perfectly into any size of business or workgroup, even education and government departments – the models all come with USB and Ethernet connectivity as standard, to easily and securely share across the office. Its high-yield, superior quality DURABrite Ultra ink cartridges are low maintenance and offer low-cost printing, producing up to 3,400 pages[5].

The series comes with Epson Connect[6] to meet all mobile printing needs, enabling users to print from smartphones and tablet PCs.
